## **Derwent London launches Community Fund programme with an extra £300,000 for Fitzrovia and Tech Belt, with kick-off match at The Warren W1**

Derwent London plc (“Derwent London” / “the Group”) is pleased to launch its enlarged Community Fund programme 2016 - covering Fitzrovia and now the Tech Belt\* area. This forms part of the Group’s on-going sustainability programme and commitment to developing community engagement. The Group’s Fitzrovia community funding programme was launched in 2013 with £250,000 committed over three years and today’s announcement confirms a further £300,000 over three years for community projects, divided equally between Fitzrovia and the Tech Belt.

Fitzrovia Youth in Action Christmas Dinner 2015

Fitzrovia Centre Arts Programme 2015

Derwent London invites local community groups, residents and local business owners to apply for funding of their community projects. For 2016, funds will be available as follows:  
Fitzrovia – a total of £50,000 is launched today, deadline for applications: 16 March 2016.  
Tech Belt (focusing on Old Street neighbourhood this year) – a total of £50,000 is available for 2016, launched in two tranches of £25,000 in May 2016 and Sept 2016.

As in previous years, applications will be considered by representatives from Derwent London and the local community. For further information and how to apply, please visit [www.derwentlondon.com/news/article/community-fund](http://www.derwentlondon.com/news/article/community-fund) or contact Derwent London - 020 7659 3000 or email [fitzrovia@derwentlondon.com](mailto:fitzrovia@derwentlondon.com) or [techbelt@derwentlondon.com](mailto:techbelt@derwentlondon.com).

Derwent London has worked closely with the local community to develop this programme to enable the delivery of worthwhile projects. Grants from its Community Fund are in addition to the Group’s required community contributions from planning agreements. The Group has now committed a total of £550,000 (including administrative costs) into the Community Fund since it was launched in 2013. Most projects funded are either completed or under way and are providing much needed improvements, community facilities and new opportunities.

One of the key projects funded by the Group is charity Fitzrovia Youth in Action’s (“FYA”) new management and resurfacing of the sports pitch at The Warren W1, opposite Suffolk House, the 13-unit affording housing scheme delivered by Origin Housing for Derwent London in April 2015. To mark the launch of the sports pitch, staff from Derwent London will take part in an inaugural football match with FYA on 26 January 2016, starting at 5.45pm.

The Warren W1 games area as it was in 2013

The Warren refurbished and relaunched January 2016

John Davies, Head of Sustainability at Derwent London, commented:

*“We are delighted to extend our community funding programme in Fitzrovia and now into the Tech Belt area. Again, working together with the local community, we look forward to supporting a range of local projects over the next few years. We are also excited to see the completion of the new games area at The Warren, providing a much-needed enhanced amenity for Fitzrovia.”*

\*The Tech Belt is defined here as the area extending from King’s Cross to Whitechapel, largely covering EC1 and E1 postcodes.

### **Background on the Derwent London Fitzrovia Community Fund**

During 2012, Derwent London commissioned an extensive research and community engagement programme called ‘Understanding Fitzrovia’ which helped identify the issues most important to local residents. The findings of the study enabled the Group to develop a community investment strategy with a commitment of £250,000 towards initiatives in the Fitzrovia community over a three year period (inclusive of £50,000 towards fees and contingencies). Launched in May 2013, the investment areas identified include supporting improvements to public spaces and street environments, community programmes and events and activities around arts and culture.

To complement the Fitzrovia community funding programme, Derwent London also launched a staff volunteering scheme in 2013 to enable employees to contribute their time and skills to some of the projects. In December 2013, October 2014 and October 2015, Derwent London staff took part in Fitzrovia Youth in Action/City Gateway 'Speed Networking' events which saw young people meet professionals to ask questions, share experiences and provide valuable information on working life.

Organisations funded so far:

#### **2013:**

- Fitzrovia Community Centre - for creating a community garden at the Fitzrovia Community Centre including a pop-up café and gallery. [www.fitzroviacommunitycentre.org](http://www.fitzroviacommunitycentre.org)

#### **Notes to editors**

##### **Derwent London**

Derwent London plc owns a portfolio of commercial real estate predominantly in central London valued at £4.6 billion as at 30 June 2015, making it the largest London-focused real estate investment trust (REIT).

Our experienced team has a long track record of creating value throughout the property cycle by regenerating our buildings via development or refurbishment, effective asset management and capital recycling.

We typically acquire central London properties off-market with low capital values and modest rents in improving locations, most of which are either in the West End or the Tech Belt. We capitalise on the unique qualities of each of our properties – taking a fresh approach to the regeneration of every building with a focus on anticipating tenant requirements and an emphasis on design.

Reflecting and supporting our long-term success, the business has a strong balance sheet with modest leverage, a robust income stream and flexible financing.

Landmark schemes in our 5.8 million sq ft portfolio include Angel Building EC1, The Buckley Building EC1, White Collar Factory EC1, 1-2 Stephen Street W1, Horseferry House SW1 and Tea Building E1.

In 2015 the Group has won awards by Architects' Journal, British Council for Offices, Civic Trust and RIBA and achieved EPRA Gold for corporate and sustainability reporting. In December, Derwent London topped the real estate sector for the sixth year in a row and was placed third overall in the Management Today 2015 awards for 'Britain's Most Admired Companies'.

As part of its wider sustainability programme, in 2013 Derwent London launched a dedicated £250,000 voluntary Community Fund and, in 2016, announced a further commitment of £300,000 for the next three years for Fitzrovia and Tech Belt.
