45 Whitfield Street is a modern, all-electric building featuring advanced technology and progressive enhancements supporting occupier wellbeing. It is a bold expression of the modernist design ethos through its unique architecture and crafted details.

What strikes you in the first instance is the standout façade. The retained steel-framed lozenge windows puncturing moulded concrete make for a memorable arrival experience. Timber veneer panelling frames the street-level glazing and double doors, creating an impressive entrance into the reception lobby.

Inside, the interiors continue the design vision with a complementary palette of materials and finishes. Porcelain floor tiles, brushed stainless steel, crown-cut European oak, and muted colours create an apt setting for feature pendant lights and statement furniture pieces.

The office floors are spacious and bathed in natural light, and the design narrative comes alive in the mid-century-style chairs, hand-crafted tables and bespoke oak joinery. The kitchenettes feature oak veneer units and timber terrazzo splashbacks made from waste material sourced in Britain.

The private outdoor terraces at the rear are a compelling component of the building. New timber decking, balustrades, low-level external lighting and seating make these go-to spaces for relaxation and alfresco meetings.
