10–4 Pentonville Road	20
Turnmill	22
The Buckley Building	24

Derwent London is a design-led specialist in refurbishment and, where appropriate, redevelopment of commercial buildings in central London. This booklet shows some of our projects in Islington with 'before and after' images depicting how we believe we are making real improvements to streetscapes and working environments. We believe that good design improves areas, attracts tenants and plays an important part in the future vibrancy of any district.
